

# PASS

## Maintain your gear and your budget

You have made a major investment in turnouts. With dwindling budget dollars, you need to get maximum return out of your investment. You need to save money, but you also need to preserve the safety of your fire fighters. Statistics show departments using our regular maintenance programs have significantly lower rates of turnout replacements, because your gear stays safer, longer.

## What is PASS?

PASS is a maintenance program designed to keep your new gear performing at optimum safety levels over a five-year period, regardless of brand. It features a flat annual fee that makes managing your budget easier and more predictable.

Annual Services include:

- Advanced Cleaning
- Advanced Inspection
- Complete Liner Inspection
- All repairs\*, including moisture barrier replacement
- PPE Maintenance Label

## We take work off your desk

We can handle the logistics, plus tracking and reporting. We can even provide you with NFPA 1971 certified replacement gear while yours is in service.

\* Some exceptions may apply

## Locations

# PASS —

Protect your new PPE ...  
your life depends on it

*In the line of duty, even the toughest gear takes a beating.*

*PASS helps you save money and keeps your gear safer, longer.*

TotalCare®

# Why Use PASS?

## Enhanced Safety and Cost Savings

- PASS reduces fire fighter health and safety risks
- PASS optimizes the protective performance of turnouts
- PASS increases the wear life of turnouts
- PASS can reduce the frequency of turnout replacements
- PASS pricing is less than the transactional cost of care and maintenance over five years
- PASS is a value-added investment when you need to purchase turnouts

# Keeping You Safer, Longer

*Skilled repair can bring gear back to serviceable levels of safety and performance, while extending its useful life*

*Advanced Cleaning removes built-up contaminants that destroy the advanced fabrics in your protective clothing and subject you to secondary exposure to carcinogens and toxins*

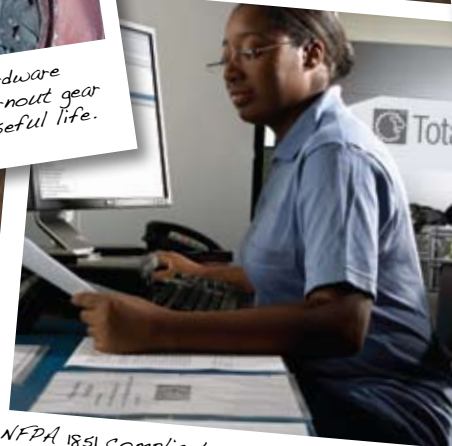

*Rips, holes, tears and broken hardware diminishes the protection of turnout gear and dramatically shortens its useful life.*

*High tech materials take a trained eye to detect performance-threatening conditions. Early detection helps prevent ongoing degradation.*

*Not all damage is visible. We use a variety of test methods to evaluate the safety of your gear.*

*NFPA 1851 compliant record keeping tracks maintenance history of every PPE element.*

*It's easy to maintain your gear with PASS. We provide prepaid shipping labels and free freight. We help you schedule your annual maintenance.*
