

Reliant™ Coat and Pants

Freedom® Design mobility and comfort features with 3" extended coat back and low-rise waist pants.

The Reliant™ Coat Delivers Performance and Value

The Janesville® Reliant™ Coat incorporates stress-reducing features, solid thermal protection and long wear life in an extended back style.

The extended back coat features bellows underarm construction to prevent hem rise and deliver a superior fit, 4" Kevlar®/Spandex® wristlets, a comfortable 3" contoured collar, zipper with FR Velcro® 3" storm flap coat closure and leather reinforcements on cuffs, shoulders and elbows for added wear life. Plus, the liner system has an inspection opening to enable a complete liner inspection without opening the hem of the coat liner.

The coat is available in 32" or 35" lengths for males and 29" or 32" lengths for females.

The Reliant™ Coat features a 3" extended back

Reliant™ Pants

The Reliant™ Pants have a low-rise waist for increased comfort. Water-resistant FR Lite-N-Dri™ closed-cell cushioning is placed in the knees between the moisture barrier and thermal liner to further enhance thermal protections.

Standard leather reinforced knees, cuffs and kick shields give you longer wear life. Plus, the liner system has an inspection opening to enable a complete liner inspection without opening the hem of the liner.
