

REALISTIC DIGITAL FIRE SAFETY EXTINGUISHER TRAINING

LION[®]
ready for action

Hands-On Fire Safety Education with a BullsEye™ Digital Fire Extinguisher Training System

Train
anyone,
train
anywhere
without
the mess

Don't let the first time they handle an extinguisher be during a real fire. Prepare them to successfully put out a fire using the **BullsEye Digital Fire Extinguisher Training System**.

TRAIN ANYWHERE

The **BullsEye** allows you to train in places where emergencies may really occur, like schools, workplaces or the home. Training can now take place completely indoors, allowing you to train anywhere, anytime. With the **BullsEye's** quick connects, one person can plug the system in, set it up and be ready to train in just one minute. Quickly relocate the system

during training to change up the evolution and test your trainees' skills.

TEST THEIR SKILLS

Make sure they're prepared for a real fire by testing their skills – sensors allow the **BullsEye** to sense trainees' actions and respond like a real fire. The flames will only subside and go out if the trainee uses the proper **P.A.S.S.** (Pull the extinguisher pin. Aim the nozzle low at the base of the fire. Squeeze the lever above the handle. Sweep the nozzle from side to side.) method. **BullsEye** extinguishers are set to discharge for the same amount of time as a

real extinguisher, and are weighted accordingly 5lb (2.5kg), 10lb (6kg) or 20lb (9kg) to closely simulate actual extinguishers. Smoke generators emit the proper amount of smoke based on the size of the fire and time since ignition to further enhance the realism of the evolution.

TRAIN MORE, CLEAN LESS

The **BullsEye** uses lasers to simulate the discharge of actual extinguishers for a completely clean and safe training experience. Similarly, our training smoke does not leave a residue, so your trainees can enjoy effective training without the hazards of conventional extinguisher training.

BullsEye™

REALISTIC DIGITAL FIRE SAFETY EXTINGUISHER TRAINING

Specifications

PATENTED FEATURES

- ▶ **Extinguishers:**
Laser extinguishers interact with sensors embedded in the panel
- ▶ **Extinguisher Sensing Control System:**
Varies flames automatically based on BullsEye extinguisher input
- ▶ Combustible materials, flammable liquids, flammable gas and electrical fire class settings
- ▶ Difficulty level settings (Levels 0 -10)
- ▶ Custom training scenarios
- ▶ Electronic training records

PHYSICAL SPECIFICATIONS

- ▶ **Overall Base Unit Dimensions:**
28 ½" x 26" x 4 ¾"
(72 cm x 66 cm x 12 cm)

- ▶ **Base Unit:** Stainless Steel
- ▶ **Base Unit Weight:**
31 lbs. (14kg.)

CONTROLS

- ▶ Wireless IR remote
- ▶ Optional wireless touch screen

BULLSEYE EXTINGUISHER

- ▶ Infrared signal with green laser display
- ▶ **Maximum Output:** 5mW
- ▶ **Wave Length:** 532nm
- ▶ Class 3R laser product
- ▶ Speaker simulating extinguisher discharge
- ▶ Ultrasonic emitter for extinguisher distance detection

- ▶ Extinguisher type detection
- ▶ Rechargeable NiMH 7.2 V

BULLSEYE EXTINGUISHER CHARGER

- ▶ 100-240V AC, 50/60Hz, 0.6A input, 12V DC, 1.5A output
