GLOVE SIZING INFO

NFPA Numeric Sizing / HAND MEASURING

Fire gloves have traditionally been labeled using alpha sizing (i.e., small, medium, large). Various sizes are available, including **64N, 70N, 70W, 76N, 76W, 82N** and **82W**. LION gloves are dual-label with alpha sizes as well as numeric sizes.

3-STEP GLOVE SIZING:

1. Measure your hand width in millimeters. This measurement will determine whether your palm is classified as normal (N) or wide (W).
2. Measure your index finger in millimeters. This length will be your size number.
3. Find your glove size on this chart based on your hand and finger measurements on chart.

NFPA-CERTIFIED GLOVES

Commander ACE™ / FIREFIGHTING

When it comes to firefighting, have an ACE up your sleeve! LION Commander ACE structural fire gloves feature premium split leather, enhanced gunn cut design, plus Advanced Cuff Engagement (A.C.E.) that make it easier for the gloves to interface with turnout coat sleeves. The ACE covers the back of hand with additional Lite-N-Dri thermal protection in a unique knuckle panel that allows for more stretch.

FEATURES/BENEFITS:

- Enhanced gunn cut pattern with three-piece back-of-the hand design for optimal stretch and grip
- Eversoft® water-repellent, thermal cowhide split leather outer shell
- Lite-N-Dri™ cushioning in the back of the hand for added knuckle protection
- KOVENEX® thermal fabric delivers excellent heat protection flame, cut and tear-resistance
- Leather gauntlet
- GORE® CROSSTECH® Insert with Film Technology for lightweight, breathable, liquid penetration protection
- Barcode tag labels for data tracking and asset management
- Color: Black
- Sizes: XXS - 4XL (Cadet: S - XXL)
- Model Numbers:

NFPA-CERTIFIED GLOVES

V-Force® / FIREFIGHTING

The V-Force® glove brings the innovative design and craftsmanship of LION's turnout gear to the structural firefighting glove. Constructed with a 3-D continuous pattern, these gloves offer a fit that mimics the natural movement of the hands, keeping fatigue low while focused on the job. Engineered with goatskin leather for flexibility, GORE® CROSSTECH® with film technology moisture barriers, and Kovenex® lining, the V-Force glove provides superior wet donning, increased grip, and breathable protection, all while meeting or exceeding NFPA 1970 standards.

FEATURES/BENEFITS:

- 3-D pattern design that mimics the hand's shape to support fluid movement and reduce stress and fatigue
- Water-repellent, flexible goatskin leather for an improved feel
- Advanced Kovenex® lining provides exceptional heat protection and enhanced wet donning/doffing
- Reinforced panels on the palm enhances grip, ensuring a stronger, more controlled hold
- Premium GORE® CROSSTECH® with film technology moisture barrier delivers breathable protection from liquids, optimizing comfort in challenging condition
- Oversized pull-tabs for quick, secure donning and doffing
- Color: Black
- Available sizing: XXS - 4XL (Cadet S-XXL)
- Model Numbers:

Defender™ / FIREFIGHTING

LION's traditional Defender fire glove offers a comfortable fit along with outstanding fingertip contact and control. Our slightly heavier, premium leather shell provides maximum protection from abrasion as well as enhanced dexterity. Along with those benefits, the Defender's inner layer of flame-resistant, knit fabric insulates your hands from heat and cold.

FEATURES/BENEFITS:

- Eversoft® water-repellent, thermal cowhide split leather shell
- Kevlar® knit wristlet or leather gauntlet
- Modacrylic/cotton blend lining
- GORE® CROSSTECH® glove insert
- Color: Black/Gold
- Sizes: XXS - 4XL

MechFlex™ XTreme™ / EXTRICATION

LION MechFlex XT extrication gloves are designed using extensive glove manufacturing experience. The result is a high-performance, breathable, washable and durable line of gloves. Abrasion-resistant materials have been strategically placed to maximize hand protection, and supply superior grip and dexterity. Quality craftsmanship and ergonomic design provide unprecedented comfort during extended wear. This also results in superior protection and dexterity for extreme conditions including motor vehicle accident (MVA) and tactical rescues.

FEATURES/BENEFITS:

- Tough, 100% nylon outer shell
- Spandex padding on back for abrasion, cut and tear resistance
- Padded knuckles with stretch for extra impact protection from jagged metal and broken glass
- Heavy-duty, black synthetic leather palm and side-walls
- Armortex®/Kevlar®-reinforced palm and finger patches for outstanding dexterity and puncture resistance
- Hi-Viz reflective material on back of glove for increased visibility in night time extrications
- Slip-on debris-control elastic cuff for easy donning easy and to keep gloves free of wreckage fragments and rubble
- Color: Black (with Lime-Yellow Hi-Viz and Gray/Silver reflective accents)
- Sizes: XS - XXL
- Model Number: LPGMXXT
